

Elizabeth Powell

Product Manager & Product Designer

I sit at the intersection of product management and design — I define strategy, set metrics, and build the thing. 5+ years leading cross-functional teams across AR platforms, media, and enterprise software. I use AI daily to research, prototype, and ship faster.

EXPERIENCE

Product Manager & Board Director

Apr 2021 — Present

Paladin & Archer Software Systems · The Rift AR Platform

Product Strategy UX Research AR / Unity Data Analysis

- Own end-to-end product for The Rift — an AR venue experience built in Unity — managing the full funnel from acquisition through post-session retention across multiple product life cycle phases.
- **Review pipeline redesign:** Identified a 67% drop-off between in-venue 5-star surveys and public Google reviews. Ran qualitative research, redesigned the handoff experience, and built a staff training playbook. **Result: rating 4.3→4.7, 54 new reviews in 8 weeks.**
- **Data-driven insight:** Used Claude to synthesize 5 data sources simultaneously — surfaced that groups of 3–4 rate 4.7 avg vs. 4.0 for pairs, with 0% negative reviews. Finding shaped format, pricing, and booking flow design.
- Set up Google Analytics funnel tracking; identified \$35→\$85 transaction value gap needed to unlock paid acquisition — used to reprioritize the product roadmap.
- Use Claude Code and V0 daily to prototype and ship: rebuilt company website and marketing funnels without an engineering team.
- Contribute product strategy to VisiCX (healthcare compliance platform) — workflow design, user research, and GTM.

Executive Director — Product & Platform Lead

Apr 2024 — Apr 2026

SKILLS

PRODUCT

- Led product, platform, and content strategy across 9 channels for a 338K-reader media organization with full editorial and legal authority.
- Built and led a 58-person cross-functional team from zero — hiring, onboarding, training, and mentoring across editorial, design, video, social, and podcast.
- Rebuilt the publication website using Claude Code: improved load times, search, team bios, and launched games as a new engagement driver. Treated internal tooling as a product problem.
- **Audience growth:** 338K readers (362K sessions), Instagram 3.3× (1,792→6,000), social following nearly doubled. Decisions driven by analytics and direct audience research.
- Designed creator workflow adoption system — iterated Google Sheets → Microsoft Tasks → incentive layer — driving consistent adoption across all teams.

Experience Designer & Brand Strategist

Aug 2023 – Apr 2024

The UVU Review

- Redesigned brand, recruitment, and onboarding experiences. Produced multimedia content optimized by audience research and platform analytics.

Web Designer & Brand Consultant

Jun 2017 – Apr 2021

Self-Employed

- Designed and shipped websites, landing pages, and marketing funnels for small businesses. Conducted stakeholder interviews to translate goals into conversion-focused digital builds.

LEADERSHIP & COMMUNITY**Lead, Company Visits Program**

Aug 2024 – Present

Product Hive

- Build partnerships and facilitate learning experiences with leading product and design teams across Utah.
